EXHALE PILATES LONDON

“It is the mind itself which shapes
the body” – J. Pilates

64 hours of hands on advanced learning after which you will receive your certificate of completion signed by Brooke Siler and Exhale Pilates London.

30 Years of Pilates Teaching: Brooke Siler is bringing her knowledge and intuition from 30 years of Pilates teaching experience, including a decade under Joseph Pilates' own protégée Romana Kryzanowska, and subsequent studies in anatomy, physiology and fascial networks, to this exciting Masters Series program at Exhale Pilates London.

Deepen Your Understanding: A masters program takes us from our training programs, that were much about broad-strokes and memorisation; through our initial teaching years, where we learned to apply what we learned to different body types, personalities and; to now deepening our understanding of what lies at the foundation of human movement as expressed through Pilates.

A Comprehensive Journey: Over and above working out, this program will challenge your mind to challenge your body. The Masters Series will encourage more intelligent and informed movement using principles and themes to work through.

Hands-On Learning Experience: Learn to see, feel and understand the movements from new perspectives and finesse them to extract more from yourself and your clients.

Personalised Guidance: Join Brooke for a pre-weekend and bi-monthly online sessions, enhancing your practice and engaging in lively Q&A discussions, culminating in a certificate of completion signed by Brooke Siler.
